EXPERIENCE THE
FUTURE OF LUXURY
SUSTAINABLE LIVING

LIFESTYLE ECO LODGES

At Lifestyle Eco Lodges we believe that sustainability and luxury can coexist.

Our eco-friendly capsule homes offer a perfect blend of modern design, innovative technology, and environmental consciousness.

Our studios are eco-friendly dwellings inspired by astronaut living quarters.

Made with lightweight materials, they have a sleek design that maximises space using multi-functional furniture and built-in storage.

Smart technology lets you control the interior environment easily, while solar panels and energy-efficient systems ensure sustainability.

Whether you're looking to create a serene retreat, a stylish home office, or a unique Airbnb experience, our capsule lodges provide the ideal solution.

Simple Steps to Order

Getting your dream eco-lodge is straightforward! Just follow these four simple steps

1. Site Survey:

We conduct a comprehensive site survey at your location to ensure everything is perfect for your eco lodge. This service is provided entirely free of charge.

2. Planning Application

If required, we can assist you with the planning application process.

3. Securing Your Order

Upon successful site survey a 10% deposit is required to secure order.

4. Order Confirmation

Once you're happy with the final design and specifications, confirm your order with a 40% deposit.

5. Final Payment & Delivery

Settle the remaining balance 7 days before the FOB date (Freight on Board), and your eco-lodge will be on its way.

Finance

Finance available subject to credit approval

Progress

We'll send you a weekly video update showing your eco lodge as it's being built by the manufacturer!

Return on Investment

Investing in an eco capsule lodge is not just about embracing sustainable living; it's also a smart financial decision.

These modular, eco-friendly units offer excellent return on investment (ROI) due to their high demand in the vacation rental market.

By leveraging the growing trend for unique, sustainable accommodation, you can generate substantial income and recoup your initial investment within a few years.

Let's break down the potential ROI with some scenarios;

K70 2-bed Eco Lodge

High Occupancy

Nightly Rate: **£200**

Occupancy Rate: **68%**

Annual Turnover: **£49,640**

Investment Recovery Time: **2 years**

A 2-bed eco capsule with amenities like decking, a BBQ, and outdoor furniture can generate a turnover of £49,640 per annum. With consistent occupancy, the investment pays for itself in just 2 years.

ROI - 2 Years

K70 2-bed Eco Lodge

Medium Occupancy

Nightly Rate: **£150**

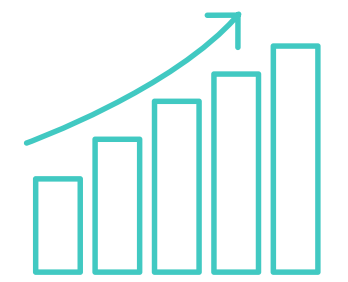

Occupancy Rate: **55%**

Annual Turnover: **£30,112**

Investment Recovery Time: **3 years**

Even with a more conservative occupancy rate of 55%, the 2-bed eco capsule still achieves a healthy turnover of £30,112 annually, leading to a payback period of 3 years.

ROI - 3 Years

Planning Information

Capsule Homes are often classed as either outbuildings or mobile homes, depending on their design and use. If you do need to apply for Planning Permission, we recommend seeking professional advice — and it's always wise to check with your local Planning Authority.

Garden Office Planning Permission Checklist

In most cases, garden offices and similar outbuildings are classed as Permitted Development under national planning rules, meaning Planning Permission may not be required.

Your Capsule Home may fall under Permitted Development if:

- It's single-storey
- It's no more than 2.5m high if within 2m of a boundary
- It's no more than 3m high if further away from boundaries

The building must also be used for purposes incidental to the enjoyment of the dwellinghouse — such as a home office, studio, or gym.

If your plans meet these criteria, Planning Permission is likely not required, but it's important to confirm with your local Planning Authority.

Granny Annex Planning Permission

This applies if you plan to install a mobile home in your garden for a family member's exclusive use.

You may not need Planning Permission if you can answer "Yes" to both of the following:

1. Does the annex meet the legal definition of a mobile home under the Caravan Sites Act 1968?

(All Capsule Homes do.)

2. Will it remain ancillary to the main house — i.e. not sold, let, or occupied independently by non-family members? If so, full Planning Permission is usually not required.

However, we strongly recommend applying for a Lawful Development Certificate (LDC) to confirm your legal position. We offer this as part of our Granny Annex package.

Transportable / Mobile Home Planning Permission

If you plan to site your Capsule Home outside the garden of a main dwelling, you will almost always require Planning Permission.

One exception: if you're replacing a mobile home that has been continuously and lawfully sited for over 10 years, you may be able to apply for a Lawful Development Certificate instead.

You'll need clear supporting evidence — such as council tax records, utility bills, or a sworn affidavit — to prove its lawful use. The replacement unit must still meet the Caravan Act definition of a mobile home.

Sustainably Engineered

Where advanced technology and sustainable thinking come together.

We partner with Luban Cabins for their exceptional quality, innovative engineering, and precision-built eco lodges. Their advanced manufacturing approach combines cutting-edge technology with meticulous craftsmanship to deliver durable, adaptable structures for projects worldwide.

Advanced Technology

With four major workshops and production lines, Luban manufactures its own aerospace-grade aluminium panels, offering outstanding stability and a lifespan of up to 50 years. Their innovative methods meet the transport and installation demands of diverse environments, while a team of experts oversees every stage from R&D to design and production, ensuring every build perfectly matches its design.

Strict Standards

Every lodge is built under strict material selection, construction, and service standards, giving you total confidence and peace of mind. Luban's facilities are equipped with comprehensive safety systems and emergency measures, reinforcing their commitment to reliability.

Enhanced Quality Inspection

Quality is at the heart of every stage, from development to delivery. Multiple inspections are carried out throughout the process, ensuring consistently high standards and earning Luban a trusted reputation worldwide.

Pinela Deluxe Freestanding Pergola

from

£12,270 inc VAT

A sleek, high-end pergola designed to adapt with the seasons. With the touch of a button, you can slide the roof panels open for sun-drenched skies or close them for full shelter.

Whether it's light, shade, or protection from the elements, the Pinela Deluxe gives you the freedom to enjoy your outdoor space in complete comfort — all year round.

Key Features

- Smooth-sliding roof panels for open-air or covered use
- Remote-controlled electronic operation
- Modern, minimalist design in four colour options
- Built for year-round weather protection
- Quick-change between full sun and full shade
- Durable, low-maintenance structure
- Ideal for entertaining, relaxing, or dining
- Custom-fit for terraces, patios, or lodges
- Dimensions: 3000mm x 3000mm
- Remote controlled Glass Panel Movement

- Thermally modified wood for year-round durability
- Flat-pack or fully assembled options available
- **Dims:** 3500mm x 2400mm x 2600mm
- **Heater:** Stone Heater
- **Occupancy:** 8-10 people
- **Power Consumption:** 9 KWH
- **Total Weight:** 1150 KG
- **Warranty:** 2 years

Malmö Barrel Sauna

£7,624 inc VAT

The Malmö Wooden Sauna delivers powerful heat and elegant Nordic design in a compact barrel shape, perfect for balconies, terraces, and small gardens.

Just 1.6m deep, it comfortably fits two people and heats up fast thanks to its curved profile.

Crafted from thermally treated pine with optional glazed panels, it's a beautiful, space-saving solution that's easy to install and built to last — for wellness, simplicity, and year-round relaxation.

Key Features

- Compact barrel design, ideal for couples & small spaces
- 42mm thermo-treated pine walls for superior heat retention
- Curved shape heats quickly and evenly in around 1 hour*
- Optional full or half “moon” glass rear wall in 8mm bronze
- Bronze-tinted 8mm toughened glass front wall and door
- Elegant interior with bench, backrests, and floor grates
- Fire-safe heater base with Minerit board protection
- No foundations required - sits on wooden cradles
- **Dims:** 2050mm x 2050mm x 1600mm
- **Heater:** Stone Heater
- **Occupancy:** 2-3 people
- **Power Consumption:** 9 KWH
- **Warranty:** 2 years

Lahti Mini Sauna

£7,565 inc VAT

Small in size, big on impact. The Lahti Mini Cube Sauna is the ultimate personal wellness retreat for smaller gardens and modern outdoor spaces.

With its sleek design, high-spec finishes, and premium thermal wood construction, it's proof that you don't need acres of space to enjoy true luxury.

Available flat-packed or fully assembled, this beautifully crafted sauna delivers year-round relaxation with minimal maintenance.

Key Features

- Seats 2–3 people – ideal for solo or shared sessions
- Compact cube design for smaller gardens and patios
- Optional 8mm bronzed glass front with glass door
- Thermally modified wood exterior – weather resistant
- Curved interior corners for even heat circulation
- Includes full Harvia Cilindro Wi-Fi heater kit + stones
- Accessories set: bucket, ladle, thermometer, essences
- Interior/exterior wood treatment included (Tikkurila + Sikkens)
- **Dims:** 2400mm x 2100mm x 2000mm
- **Heater:** Stone Heater
- **Occupancy:** 2-3 people
- **Power Consumption:** 9 KWH
- **Warranty:** 2 years

København Deluxe Wooden Hot Tub with Integrated Stove

£5,950 inc VAT

Combining bold Nordic styling with everyday ease, the København offers a deep, moulded fibreglass interior for long, relaxing soaks, while the powerful wood-fired stove heats water quickly and efficiently.

Wrapped in thermo-treated timber and finished with thoughtful extras like LED lighting and hydro massage, it's built to deliver comfort, durability, and style - whatever the season.

Key Features

- Integrated 30kW wood-fired stove (heats in 1.5 - 2 hrs)
- Ergonomic fibreglass insert in four colour options
- Thermo-treated Nordic spruce exterior
- Hydro massage system for spa-like comfort
- LED lighting for a calming glow
- Bluetooth stereo for immersive sound
- Insulated cover to retain heat
- Filter system with ceramic filter balls
- **Dimensions:** 2000mm x 2000mm
- **Capacity:** 1150 Litre
- **Occupancy:** 4-6 people
- **Power Consumption:** 6 KWH
- **Warranty:** 2 years

Bergen Wooden Hot Tub and Ice Bath

2 persons

£4,900 inc VAT

A compact classic that is big on both style and performance, the Bergen Hot Tub is your all-season escape.

Designed for two, it combines Nordic elegance with practical comfort - from its ergonomic fibreglass interior to its premium thermowood exterior. Whether you choose the crackle of a wood-fired stove or the ease of gas heating, the Bergen arrives fully assembled and ready to transform any outdoor space into a personal spa retreat.

Key Features

- Wood-fired or 36kW gas heating options
- Ergonomic, easy-clean fibreglass interior
- Premium Nordic thermowood cladding
- Compact size - perfect for smaller spaces
- Delivered fully assembled and portable
- Two-tier wooden access steps included
- No need for a fixed foundation
- 2-year manufacturer's guarantee
- **Height:** 1090mm
- **Capacity:** 800 Litre
